the new album from

Greg Hancock

The State of My Hair

An uncompromising,
genre-defying collection of songs
examining personal memories
and how we all end up being the
people we are.

Greg Hancock is a songwriter, guitarist and singer from Devon who has a strong following throughout the UK, built up from frequent performances and also from his widely acclaimed album released in 2017, "A303".

"A303" is the finest folk album I have had the pleasure of listening to for years" *Blues and Roots Radio review*

"A delightful collection ★★★★★" *RnR Magazine*

"Superb...one of the finest albums of the year" *Folkcast*

"Stunning" *BBC Introducing*

"Lyrics, vocals and melodies are all near perfect and the guitar playing is at a time truly breathtaking." *Fatea*

The State of My Hair

features some top musicians:

Ashley Height – lapsteel and lead guitar

Kathryn Tremlett – violin

Jo Hooper – cello

Ben Homer – keyboards

George Arnold – just about everything else!

The album was produced by George Arnold
Recorded, mixed and mastered at Rapunzel Studios.

With "The State of My Hair", Greg has expanded his musical vocabulary into new areas while maintaining the lyrical and instrumental elements that were such a feature of "A303"

Everything from pared-back guitar and vocal to a full-on band sound can be found in this collection.

Greg unflinchingly makes observations on topics as diverse as teenage loss of innocence, unrequited love, ageing and dementia and the fragility of friendships – all handled with sensitivity and insight...as well as a good dose of dark humour.
